Negatives sent to ARCE: January 2006

These negatives are of Pre Conservation work at Luxor Temple on the Southeast and East wall of the Amenhotep III Chamber/Roman Vestibule.

38 color photographss were taken. There are 4 color transparencies of each shot – a total of 152.

44 black and white photographs were taken. There is 1 black/white negative and corresponding black/white print of each.

Negatives 19731 thru 19736 are details of test cleaning on both walls.
